

CRIMSON CIRCLE

A Global Affiliation of New Energy Teachers

A serene winter landscape featuring a dense forest of evergreen trees. The scene is captured from a low angle, looking across a snow-covered field towards a range of mountains in the distance. The sky is a deep, dark blue, and a heavy, continuous snowfall is visible throughout the entire scene, creating a soft, ethereal atmosphere. The lighting is subtle, with a slight glow on the horizon suggesting a low sun or moon. The overall color palette is dominated by cool blues, greys, and whites.

CRIMSON CIRCLE

Tobias, November 1, 2008

Carl Jung was a leader in his time, developing new ideas and new consciousness. While there was such a movement toward science and technology, he said, “It’s not ALL about science. There’s something more. There’s this thing called the spirit, and that should play an important role in any person’s life – the understanding of their consciousness, of their inner self, and the thing that does go beyond the mind.” He was a pioneer in his time and that’s why he has asked to come back and see the new pioneers of this new age.

Tobias, November 1, 2008

As we observe the energies from Angel's Peak, we observe how it's not just the ones who are going to the voting places and moving the lever, but behind every voter are ten or twenty other voters – consciousness from people in other places around the planet who are also participating. This is the first sizable election of its kind that has had that kind of energy where it ties in more than just the one person who's voting, but they are also feeling the consciousness of others of a similar vibration around the world. You could say this is the first truly global vote that's ever taken place.

Tobias, November 1, 2008

BEAP

Tobias, November 1, 2008

B – Breathe. Breathing is the best thing you can do for yourself. Breathing moves energy. Breathing gets you back in your body. Breathing gets you back centered, gets the energy flowing. You get stuck a lot. Breathing helps. Breathing is spiritual lubricant. Saint-Germain says breathing dumbs you down, meaning you get out of your head. You stop thinking so much.

Tobias, November 1, 2008

E – Ease. If you're finding that there are a lot of struggles in your life, everything is difficult and challenging, you're doing it wrong. What is with all of these ailments you're suddenly getting? It's because you're making it difficult. Your Self is trying to tell you it should be with ease. Do it with ease. You'll find how amazingly easy it can be, particularly if you're back in the breath and back in yourself.

Tobias, November 1, 2008

***A – Awareness.* When you're aware of your body, when you're doing the breathing, it's going to bring more life-force energy into your body requiring less food nutrition. Your body will operate at a more efficient level. Be consciously aware of the air that you breathe, of the trees outside, of the sky, the birds, everything in nature. Be aware of sounds. Be aware of things you see and smell. Be aware of the other energies around you, they are coming in like never before.**

Tobias, November 1, 2008

P – Point of Presence.

Where are you right now? Where is your presence? Where is that brilliant flash of light or enlightenment or awareness? Is it off into tomorrow? In this Point of Presence everything comes to you. When you're out there, it doesn't. It's as simple as that. When you're here it comes to you. When you're here and you're making conscious choices it magnetizes you. It causes those things to now start flowing into your reality.

A serene winter night scene with a full moon glowing in a dark sky filled with falling snow. In the foreground, a snow-covered path leads through a forest of snow-laden trees. In the distance, a small cabin is visible. In the upper right corner, a reindeer is seen flying through the sky, suggesting a holiday theme.

A vibrant sunset scene over a tropical beach. The sky is filled with soft, colorful clouds in shades of purple, pink, and orange. The sun is low on the horizon, casting a golden glow across the water and reflecting on the sand. In the foreground, the silhouettes of palm trees and other tropical vegetation are visible against the bright light. In the background, a dark, forested mountain range stretches across the horizon.

Do you know who Barack Obama used to be in a previous incarnation? I'll give you a few clues here. Sixteenth president of the United States, came from Illinois, was a congressman, fought for one of the greatest causes – not just in America, but on Earth. Put the picture of Abraham Lincoln next to Barack Obama. Look, it's right there! Just paint a little beard on Barack, change the skin of color of Lincoln – you got it. Abraham Lincoln comes back as Barack Obama to help take not only this country, but the world on to a new level.

CRIMSON CIRCLE

A serene winter landscape featuring a snow-covered mountain range under a dark, starry night sky. Numerous evergreen trees are scattered across the foreground and middle ground, their branches dusted with snow. A soft, ethereal glow emanates from behind the mountains, creating a misty atmosphere. The scene is filled with a gentle, continuous snowfall, with white flakes drifting down against the deep blue and black tones of the night.
