CRIMSON CIRCLE

Kuthumi, Febraury 7, 2009

What a wonderful time in your life right now to create, when the energies are this high and this intense, when the energies are this opened. You see, never before has there been so much chaos and so little structure. Never before has there been so much uncertainty and doubt in human consciousness. Never before have there been so many new openings into expanded consciousness, into new ideas.

Kuthumi, Febraury 7, 2009

One of the biggest reasons that we're here is not to impart our grand, brilliant wisdom on you. It's to encourage yours. We're here to listen to you, and I would recommend that you talk to us out loud. When you try talking through your mind to us, it has a different effect on you. But when you can hear your own voice talking out loud and then listening back to us, it helps put a clarity on things. It helps keep that energy moving in such a delightful way.

Kuthumi, Febraury 7, 2009

The world is in chaos as it never has been before. Energy is moving faster, consciousness is more stuck in one way, more threatened in another way, and more fearful than it's ever been, even in my lifetimes on Earth. You have bankers, business leaders and government leaders at the highest levels who, with a few exceptions, have no clue. This is partly because there has been no school, there have been no mentors that have ever gone through what is happening on Earth before. So it's all speculation, and it's all theory, and more than anything, it's all window dressing. It's like the [Wizard of] Oz behind the curtain making the big noises but not having a clue.

Kuthumi, Febraury 7, 2009

You've been eating the elephant... this whole thing called the change into New Energy. You've been feeling consciousness changing or at least wanting to change. You've been feeling the tension and the uncertainty all over the world, because you're Shaumbra; because you're connected to Earth as you are connected to the heavens; because you have the deepest level of empathy and you feel things; because there is an inner knowingness that right now is such a historic, unprecedented time. You know from your personal experiences that it's not just a little bit of change, as some are trying to say. It is the grandest evolution, perhaps revolution, of all times.

Kuthumi, Febraury 7, 2009

So today we're going to move into that deepest level of feeling. Half the elephant in, half the elephant out. What do you do? I'm going to invite you to let yourself absolutely feel the Earth chaos energy. Let yourself feel this lack of hope that so many humans feel right now. Let yourself feel the uncertainty that so many of the leaders feel. Let yourself feel how so many of the world's leaders know the fraud that is taking place, but allow it to keep happening. Let yourself feel these weather patterns that Tobias talked about. Let yourself feel the fear that humans are going through right now. Let yourself absolutely feel the fear of humans wondering if it is indeed the end of the world.

Kuthumi, Febraury 7, 2009

Now ... now that you've got this all in you, now that you ate all the elephant, now it's in your tummy, it's in your emotions, in your mind, now what do you do? Well, you just keep breathing. You don't have to try to get rid of it. It naturally transmutes. It goes from being a fearful energy or an overwhelming energy back into its pure state. It naturally works its way out of any body tissues that it's been in. It naturally works its way through the mental. It naturally works through your emotions. And what you have at the end of this constant process, this flowing process, is new insight, new clarity and simplicity.

Kuthumi, Febraury 7, 2009

Literally, dear Shaumbra, the answers to tomorrow for this world are in you. You become the conduit. You become the opening that others can follow after you. They can see from your example how to go beyond overwhelm, beyond the old illusions into the new. You become the first one to climb the mountain or cross the chasm, the first one into this new level of consciousness. They'll intuitively feel it. They'll intuitively tap into your energy as the Standard and use it in their professions, their way of doing things.
