**CRIMSON CIRCLE**

**Adamus Saint-Germain, October 4, 2008**

**Dear, dear Shaumbra, what you are seeing right now is a farewell to power, the loss of power, power as the poison on Earth right now. It is sweeping across every institution of power, [including the financial sector, the government, the churches]. You are going to see it even in things like universities and schools, in the police departments, in the militaries, because what used to be the very thing that sustained them is now going to be the thing that collapses them.**

## **Adamus Saint-Germain, October 4, 2008**

**You are the ones you've been waiting for. You are the messengers. You are the ones who have come across time and space. In spite of getting caught in this very linear and restricted dimension, you are the ones who came here with the message a long, long time ago, disguised for so many lifetimes in the physical body, trapped for so long in the mind. You are the messengers. Not the ones in flying saucers, not some leader who you think is going to rise up from the ranks, come to save this planet Earth. You are the messengers.**

## **Adamus Saint-Germain, October 4, 2008**

**Over the next four years you're going to see some very difficult things, challenging things. You're going to see an old consciousness on Earth unravel, come apart. The next four years are going to be a time for you to be in balance, to bring up within yourself everything that you've learned, everything that you've gained in wisdom, everything that you already know within yourself. The next four years are going to be a time to stop hiding and stop pretending that you're a victim, stop pretending that you're waiting for something else. Stop pretending that you have to learn more, you have to go through all of these rituals and ceremonies to become a New Energy human.**

## **Adamus Saint-Germain, October 4, 2008**

**You will be able to get through every part of this nearly unscratched if you remember to trust who you are. I'm not talking about trusting some unknown god. I'm not talking about trusting a guru. I'm not talking about trusting who you think you're going to be five or ten years from now. I'm talking about trusting you right now. You have every tool. You have every resource. You have everything you need right now, because, as a messenger, you put it there for yourself. Trust that you knew enough to put that tool in the path to be utilized in the Now moment.**

## **Adamus Saint-Germain, October 4, 2008**

**You'll see what many will term visitations – lights in the sky – very unusual patterns, the likes of which have not been seen before. These are not the aliens. These are the new consciousnesses of humanity coming in. They will be perceived as lights in the sky, not just at night, but during the day. They'll be perceived as very interesting shifts, mostly as light energy, but as other types of energy as well. Some will interpret this through the mind and the eyes as alien beings, but it's your New Energy, your divinity and the new consciousness of humanity coming in.**

## **Adamus Saint-Germain, October 4, 2008**

**As we now move into this very important time in your lives, here are just a few simple things to remember:**

- Power is leaving**
- Stay out of the drama**
- Stay out of blaming yourself**
- Simplify all things in your life**
- Let go of your mind as a power center**

## **Adamus Saint-Germain, October 4, 2008**

**“The collapse of power leads to waves of turbulence that cause a tense void, which leads to new awareness.”**

**Right now you are seeing power centers collapse. That will send out waves of turbulence, which will elicit fear, drama, overreaction by people all around the world. But this will create such an energy dynamic that it creates a type of void, and in the void people don't know what to do. They are searching for answers everywhere but there does not seem to be anything at the moment. It is a tense void because it was created out of tension. When that void transmutes, the transmutation invites in awareness or new consciousness on a very, very high level. It will come rushing in, streaming in like water when a dam is broken, you're going to see some very, very fast and very efficient solutions.**

## **Adamus Saint-Germain, October 4, 2008**

**You're in for the most incredible part of your journey here on Earth in this lifetime, the part that you have been rehearsing for in the other realms, that you've been preparing for in every different way in your life right now. It is a time for you, the messengers, to come forward – not to preach and to evangelize, not to tell people how you were right or they were wrong, but to be there as a Standard of new consciousness. Because when this void is filled and the awareness comes in, it's going to need people like you to be the ones who are integrated, who are grounding it, and who are acting in a reasonable and high consciousness fashion. My hat is off to each and every one of you for the work that you do.**
